

GHOST III

NEW

The new **GHOST 3** holster has been designed for Military and Law Enforcement personnel. Several studies demonstrated the weaknesses of the existing "retention" holsters. As studies have shown, most holsters found on the market are extremely vulnerable, and once de sidearm is lost, the officer find him/herself in a life-threatening position.

OPERATION

The easy "re-holstering" operation **with automatic lock**, enables the officer to use safely both hands in an instant.

Rotation System

Belt Module

Tactical Set

VERSATILE "Click on-off"

GHOST 3 holster can be separated from the belt module and be connected in a second to:

- a Leg Holster (Tactical Holster) Module
- a Shoulder Holster Module
- an Automotive Module
- a Desk Module
- Safe System

Automotive Desk Module

STRONG AND RELIABLE

GHOST 3 is built with aviation industry materials and methodologies, and has passed the most severe tests. No maintenance is requested.

High Ride Kit

COMPLETE SET

GHOST 3 Holster set is complete with a Belt Module; an Automotive/Desk Module.

OPTIONALS

- Tacting Set (Thigh Holster System)
- Rotation System: the holster can be turned 90° just by pressing a button, providing more confort in certain circumstances, for instance for sitting inside a vehicle.
- "Safe System": once separated from the belt, **GHOST 3** can be "locked" with handcuff key to avoid the accessibility by unauthorized people (for example at home). **GHOST 3** can be reconnected to the belt only if unlocked, this will avoid carrying a locked gun.

*READ INTRUCTION BOOKLET CAREFULLY BEFORE USING.
