

KOWA LANDSCOPE™

COIN-OPERATED BINOCULARS

Standard Model
BL-8H

- Large diameter objective lenses for bright and sharp images.
- Viewing time and coin type set to required specifications.
- Simple installation and dismantling for easy relocation.
- Rugged and waterproof structure for use in all outdoor conditions.

BL-8H

Installation of the base

To secure the base of the binocular, install 1/2" diameter bolts (6) at the points shown in the diagram to the left. Leave 1.5" of the bolt exposed, place the base over the bolts and tighten the nuts on the bolts.

LANDSCOPE™ BL-8H
