

ACE Assault Rifle 5.56mm

Models:

ACE 21 Assault Rifle/Carbine

ACE 22 Assault Rifle

ACE 23 Assault Rifle

The ACE family of assault rifles are based upon the reliable mechanism of the famous GALIL assault rifle. The ACE incorporates enhanced human engineering and ergonomics with the demands of the modern battlefield.

The ACE family of assault rifles offer the ultimate solutions for today's modern warfare requirements of high accuracy and reliability. The ACE assault rifle is battle proven under the most extreme conditions worldwide.

The ACE family of assault rifles are versatile weapons with multiple picatinny rails serving as platform to mount a wide array of optical devices and diverse accessories. Nonetheless, after all of these advances the ACE is still very user friendly and simple to maintain.

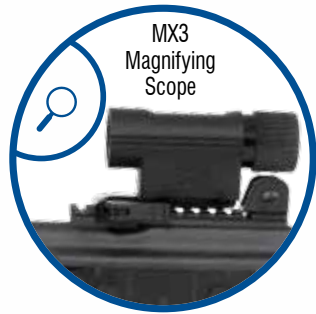

Its main features are:

- Short, lightweight assault rifle that comes in three lengths
- 5.56x45mm NATO standard ammunition
- 4 picatinny rails
- Modern streamlined design
- Standard 35 round GALIL magazine
- Last round catch
- 2 fire modes: automatic and semi automatic
- Exceptional trigger
- Muzzle brake / jump compensator
- Air cooled, gas operated weapon
- Combat proved, reliable under adverse and extreme conditions
- Easy to use by right or left handed user
- Simple maintenance, no tools are required when stripping the weapon
- Combat night sight
- Telescopic and / or foldable butt

ACE 21
