

UZI PRO SMG (Sub Machine Gun) 9mm Shoots like a rifle. Works like an UZI

The UZI-PRO represents a major step forward, for the UZI family, in terms of the benefits gained from modern materials and design concepts. The weapon was designed with user experience from Israeli Special Forces.

Utilizing modern polymers, MIL-STD 1913 (Picatinny) rails, ergonomic shoulder stock, and foldable handgrip, the weapon has been redesigned to be lighter, more accurate, more reliable but still concealable.

The UZI PRO has new features which give the best solutions for close combat situations.

All of this has been accomplished without compromising the functionality and reliability associated with the famous UZI reputation.

Its main features are:

- Extensive use of polymers for greater strength, modern ergonomic and less weight
- Closed bolt operation for maximum accuracy and safety
- Ergonomically designed and easy to use by right or left handed user
- Quick fitting suppressor
- Full auto and single shot
- Small, compact and concealable
- Adjustable shoulder stock with mounted cheek rest
- Designed to use optic sights

UZI PRO

Optional Accessories

UZI PRO
with Reflex Sight and Silencer

UZI PRO®

Model	UZI PRO
Mechanical Features	
Ammunition	9x19mm Para.
Operation	Blowback, firing from Closed Bolt
